

Portfolios

- ❖ There is NO law requiring records to be kept, but it is important to keep a record that shows your child's educational background.
- ❖ The portfolio serves to evidence your child's education, assess educational progress, place him in a traditional school, legal case, set educational goals per year, if any government agency requests evidence, to create a transcript or summary.
- ❖ If unable (death, illness, return to work) to continue education at home, the portfolio is a valuable mechanism for placing a student in the traditional system.
- ❖ If he returns to the traditional system, he must maintain and record a portfolio for each year that the student was home-schooled. There is no time limit to save it but we suggest that it be well preserved (physical folders or electronic files).

Portfolio in Folder

Items we can store in a portfolio:

- ❖ Our educational philosophy (which educational method we use and why)
- ❖ Personal documents
- ❖ General objectives of the year. It can be by academic year in general or by subjects. If you are interested in returning to the traditional system, it is suggested that you organize it by subject.
- ❖ List of materials and resources used (books, notebooks, websites, applications, etc.)

Portfolio in Folder

Items we can store in a portfolio:

- ◆ Assessments written by parents (exams, if they administer), record of grades, test scores or professional assessments.
- ◆ List of extracurricular activities.
- ◆ Agenda or calendar of daily activities.
- ◆ Samples of work done, photos and memories of activities.
- ◆ Awards, certificates of attendance, diplomas received from classes or outside activities, letters of reference that others have written about your child, newspaper clippings, etc.
tions, etc.)

It helps you see at the end of the year how much work has been done and the sense of achievement is greater when you can see everything in a report.

Duke Francis High School - Q Grade Report Card

7. grading scale reflects the following:

*Average earned is over 80% for all students in class

Electronic Portfolio

- ❖ Can track progress on programs like Homeschool Skedtrack, Homeschool Tracker, Word, Excel, Evernote, Seesaw, blogs, websites, etc.
- ❖ Could include the following parts:
 - List of books and resources used
 - Description of the subjects offered in each subject (including the date is very valuable for calculating the days per year of study)
 - Note report and/or progress report
 - Attendance list
 - List of extracurricular activities

Alternate Portfolio

- ❖ If your child has sports, artistic, musical, etc. talents and skills, it is suggested that they have a separate portfolio to demonstrate these skills in case they are required for an interview or audition.
- ❖ Parents who decide to document hours of green contact, community service or occupational exploration are also advised to keep them separate (whether they are required for re-entry into traditional school or to be documented in a credit transcript).
